

Mini Crawlers

Used Mini Crawler Rancho Cucamonga - We have designed various programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who requires re-certification or certification, and for inexperienced operator who is looking for work in the industry. Crane operator positions are in demand due to their high rates of pay. Crane operators are amongst the highest paid of whichever operator of heavy machinery. Our Crane Operator training provides instruction for a variety of mobile cranes. Course content consists of Wire Rope, Crane Set-up, Lift Planning, Load Dynamics, Signaling, Load Charts and Rigging. The Crane Training School program is suitable for operators, riggers and supervisors. Course materials comprise a manual and informative hand-outs. The illustrated safety instruction manual features 100 to 250 pages, which depends on the course, of essential and useful material. Course materials consist of load charts and load chart exercises for the crane with which the individual training is working. Hands-On Safety Training would take up over half of the course curriculum. The practical training section is the most helpful method to developing and improving personal skill levels. Only experienced journeyman crane instructors are selected to teach the courses. Our instructors have numerous years of practice in the business. For all the course we provide, we could include optional testing mechanisms to customize your training. A skills test is normally administered for programs that comprise H.O.S.T. Trainees will be graded and tested. Certification Training Programs: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signaller Certification and Training; Articulated Boom / Knuckleboom Cranes; Certification & Testing; and In-The-Seat Training. As the new business requirements emerge, the business standards of practice also evolve. The industry sees constant updates to regulations and legislation, in addition to equipment and technology enhancements. Industry data collection and analysis identify trends which are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members abreast of personal and workplace safety news.
